Factory reset

If you, by some reason, need to make a hard factory reset of your Animus Heart. Follow the steps below:

Read all the steps first before attempting anything!

1. Unplug the power cable and plug it back again to start a reboot.
2. Once the Halo becomes **Orange**, unplug the power cable. Then plug the cable back in.
-- Repeat this step one more time --
3. Once the Halo becomes **Red**, unplug one last time at this stage. Then plug the cable back in.

The factory reset will now start.

Note: If the default Blue light is shown after a minute, then the factory reset process has not started properly. Please redo all the steps above.
